The band states:

"With our debut album Digital God we put ourselves on a heavy metal journey. In that perspective Soldiers of Light is the continuation of what we establish with our first album regarding sound, lyrics content, and songwriting. We were very pleased with the sound and with the direction that we were heading on the first album, so we did not change the winning formula. But there is a little change in a good way because the band is tighter now than it was three years ago. Our producer and mixing engineer Grega Smola Crnkovič and our mastering engineer Boban Milunovič along with Aleksandar Živanov (artwork) did phenomenal work. We are proud of our new baby. But, every great album needs a record company that can make it shine and bring it to the listeners. With our record company Reaper Entertainment Europe we know, that our album is in the right hands are we are sure, that Soldiers of Light will stand the test of time and will satisfy every die-hard heavy metal fan. Grab a copy and enjoy the heavy metal journey! You will not regret it!"

About **SkyEye**:

Slovenian heavy metal band SkyEye was founded in 2014 by guitarist Grega Stalowsky, bassist Primož Lovšin and singer Jan Leščanec. SkyEye got its current line-up in 2016 when guitarist Marko Kavčnik and drummer Jurij Nograšek joined the band. Unique and powerful vocals combined with raw and melodic guitar riffs give the band its signature heavy metal sound, reminiscent of other major representatives of the genre, like Iron Maiden, Saxon or Judas Priest. The band made its debut appearance in June 2017, and only four months later brought out its first EP under the title Run for Your Life. The overwhelmingly positive response and strong support at their performances drove the SkyEye back into the studio to record their debut album DIGITAL GOD, which was released on November 9, 2018.
